Board of Selectman

The town is in need of two new trucks for the highway department. The town pickup is a 2007 Chevrolet 1500, a ½ ton rear wheel drive pickup used every day to check roads, carry signs to jobs, parts runs, repairs on roadsides, carries tools and equipment to all jobs on the road. We bought it used in 2009 with less than 5,000 miles on it. This truck has been very good for the last 16 years. It is 18 years old and getting very rusty. We need to upgrade to a truck that will better serve the town.

The new truck will be 2026 Ford F250 4 wheel drive with a flatbed and snow plow gas engine automatic transmission. The cost of this truck will be \$64,810.10 on state contract.

The small dump truck is a 2006 GMC 5500 4 wheel drive with a 10 foot v plow and 3 yard dump body, the town bought it new in 2006. This truck is used every day for checking roads hauling asphalt patch, wood chipper and chip box, and garbage route twice a week, all activities on roads every day. It has a plow route of its own. This truck plows parking lots down town, senior center, Daycare center, Kellogg school, Transfer station, Firehouse and it helps with dirt roads and intersections around town. This is the most used truck of our fleet and the only 4 wheel drive. We have been very happy with this truck and its ability to fill the needs of our town but we are having a very hard time getting parts to keep it running. In some cases making our own parts for the drivetrain.

The new truck we have chosen is a F 600 Ford 4wheel drive dump truck with a 3-4 yard dump body and a V-plow. A diesel engine and automatic transmission. This truck will be able to everything the old truck has done and more.

We would like to get these trucks on order right away. Truck reserve account has 180,000 dollars in it to cover the cost of both trucks.
