(ii) use construction materials that are resistant to flood damage,

(2) MANUFACTURED HOMES. No manufactured homes (including "mobile" homes) are to be placed in any flood hazard area within the boundary of the Town of Canaan.

(3) SUBDIVISION PROPOSALS. That the Building Official and Zoning Administrator shall review subdivision proposals and other proposed new development to assure that:

(iii) adequate drainage is provided so as to reduce exposure to flood hazards, and

(iv) in Zone A, base flood elevations data shall be provided for subdivision proposals and other development which are five acres or fifty lots, whichever occurs first.

That the Town Sanitation shall require new or replacement water supply systems, sanitary sewer systems and/or on site waste disposal systems to be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems, and them to be located so as to avoid impairment of them or contamination from them during flooding.

(5) DUTIES AND RESPONSIBILITIES OF THE BUILDING OFFICIAL
The Building Official shall:

(a) Advise permittee that additional Federal or State permits may be required, and if specific Federal or State permit requirements are known, require that copies of such permits be provided and maintained on file with the development
permit. Such permits may include, but are not limited to; Water Diversion, Dam Safety, Corps of Engineers 404.

(b) Notify adjacent communities and the Department of Environmental Protection, Water Resources Unit Prior to any alteration or relocation is a watercourse, and submit evidence of such notification to the Federal Emergency Management Agency.

(c) Assure that maintenance is provided within the altered or relocated portion of said watercourse so that the flood-carrying capacity is not diminished.

(d) Record the elevation (in relation to mean sea level of the lowest floor including basement) of all new or substantially improved or flood proofed structures. When flood proofing is utilized for a particular structure the Building Official shall obtain certification from a registered professional engineer or architect.

(e) When base flood elevation data or floodway data have not been provided on the Flood Hazard Boundary Map for the Town of Canaan then the Building Official shall obtain, review and reasonably utilize any base flood elevation or floodway data available from federal, state or other source in order to administer the provisions of this ordinance.

(f) Should other data be utilized select and adopt a regulatory floodway based on the principal that the area chosen for the regulatory floodway must be designed to carry the waters of the base flood, without increasing the waters surface elevation of that flood more than one foot at any point.

(6) GENERAL STANDARDS

(a) Residential Construction. New construction or substantial improvement of any residential structure shall have the lowest floor, including basement, elevated at least to two feet above the base flood elevation.

(b) Non-Residential Construction.

1. New construction or substantial improvement of any commercial, industrial, or non-residential structure located in Zone Al-30, AE & AH shall have the lowest floor, including basement, elevated at least to two feet above the level of the base flood elevation; or

Non-residential structures located in all A-Zones may be flood proofed in lieu of being elevated provided that together with all attendant utilities and sanitary facilities the areas of the structure below the required elevation are water tight with walls substantially impermeable to the passage of water, and use structural components having the capability of resisting hydrostatic and hydrodynamic loads and the effect of buoyancy. A registered professional engineer or architect shall review and/or develop structural design, specifications, and plans for the construction, are in accordance with acceptable standards of practice for meeting the provisions or the subsection. Such certification shall be provided to the Building Official.

(7) FLOODWAYS. Prohibit encroachments, including fill, new construction, substantial improvements and other developments unless certification (with supporting technical data) by a registered professional engineer is provided demonstrating that
encroachments shall not result in any (0.00) increase in flood levels during occurrence of the base flood discharge.

(i) In A-Zones where base flood elevations have been determined, but before a floodway is designated, require that no new construction, substantial improvement, or other development (including fill) be permitted which would increase base flood elevations more than one (1) foot at any point along the watercourse when all anticipated development is considered cumulatively with the proposed development.

(ii) When utilizing data other than that provided by the Federal Emergency Management Agency, the following standard applies: select and adopt a regulatory floodway based on the principle that the area chosen for the regulatory floodway must be designed to carry the waters of the base flood, without increasing the water surface elevation of that flood more than one foot at any one point.

(8) MEAN SEA LEVEL. Mean sea level means, for the purpose of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929, or other datum, to which base flood elevation shown on a community's Flood Insurance Rate Map are referenced.

(9) "START OF CONSTRUCTION" includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, or improvement was within 180 days of the permit date. The actual start means the first placement of permanent construction of a structure (including a manufactured home) on a site, such as the pouring of slabs or footings, installation of piles, construction of columns, or any work beyond the stage of excavation or placement of a manufactured home on a foundation. Permanent construction does not include land preparation such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings piers or foundations or the erection of temporary forms, nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure.

(10) SUBSTANTIAL IMPROVEMENT means any combination of repairs, reconstruction, alteration, or improvements to a structure, of which the cumulative cost equals or exceeds fifty per cent of the market value of the structure. The market value of the structure should be,

1. the appraised value of the structure prior to the start of the initial repair or improvement, or
2. in the case of damage, the value of the structure prior to the damage occurring.

For the purposes of this definition, "Substantial Improvement" is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of a structure. The term does not, however, include any project for improvement of a structure required to comply with existing health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions.
(11) LOWEST FLOOR means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, usable solely for parking or vehicles, building access or storage, in an area other than a basement area is not considered a building's lowest floor.

(12) "WATER SURFACE ELEVATION" means the height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929, (or other datum, where specified) of floods of various magnitudes and frequencies in the floodplains of coastal or riverine areas.

(13) This ordinance (and the FLOOD INSURANCE RATE MAP and any subsequent Flood Insurance Study and attending maps which are adopted by reference) shall become effective 15 days after publication of a summary thereof pursuant to the provisions of the General Statutes, Section 7-157b, in a newspaper having circulation in the Town of Canaan.

(14) If discrepancies are found in any part of the map, and are to be corrected, any citizen may appeal through the Board of Selectmen to the Federal Agency responsible for the map construction.

Notation: The Town of Canaan is in compliance with Section 60.3(d) of National Flood Insurance Program regulations, and has implemented the use of the Flood Insurance Study and the Flood Insurance Rate Map as of September 2, 1988.”

AN ORDINANCE CONCERNING ESTABLISHING LAND USE APPLICATION FEES

Section 1. Authorization and Purposes
1.1. To establish a schedule of fees, pursuant to Section 9-lc of the Connecticut General Statutes, which requires new development to fund the actual municipal administrative costs of reviewing, evaluating and processing land use applications, and ensures that fees do not cause new development to subsidize municipal expenses which are not directly attributable to reviewing, evaluating and processing land use applications.

1.2. To establish a reasonable and equitable schedule of fees for reviewing, evaluating and processing land use applications to the Town of Canaan Planning and Zoning Commission ("Commission") and the Town of Canaan Zoning Board of Appeals ("Board") which calculates fees separately and individually for each land use application.

1.3. To improve the services provided to land use applicants for reviewing, evaluating and processing land use applications.

1.4. To encourage land use applicants to submit complete land use applications which comply with applicable Town of Canaan ("Town") regulations and to submit plans, proposals and/or applications with a minimum of errors and omissions.

Section 2. Definitions

(e) Appeal of ZEO Decision to ZBA $100.00
(f) Variance Application $100.00
(g) Inland Wetlands Application $105.00
(h) Subdivisions—Final Subdivision Plan $300.00 + $100.00/lot
3.2. In addition to the fixed fees set forth in Section 3.1, the Commission or Board shall collect payment for direct costs of materials and services performed by those other than Town employees, who are directed by the Commission or Board to undertake or participate in the review, evaluation and processing of land use applications. Services may include, but not be limited to, professional consulting services (i.e., legal, engineering, architectural, planning etc.), specialized inspections, third party professional certifications, and stenographic and transcription services. In the alternative, or in addition, the Commission may require an applicant to provide certifications, inspections or professional consultant reports at the applicant's expense.

Section 4. Computation of Fees

4.1. The expense of those services required under Section 3.2 shall be approved by the Commission or Board based upon an estimated cost of review prepared by the Zoning Officer and approved by the Commission or Board. One hundred fifty percent (150) of the estimated cost of review shall be deposited with the Zoning Officer by the applicant within fifteen (15) days of the receipt by the applicant of the notification of the required amount. Failure of the applicant to deposit the required amount shall be deemed a failure of the applicant to submit an appropriate fee for the application, and the application shall be deemed incomplete.

4.2. Upon completion of the professional review under Section 3.2 and final action on the application, the Zoning Officer shall determine the actual costs incurred for the review, and the Commission or Board shall refund any excess funds to the applicant. Applicants shall not be responsible for costs incurred or professional assistance which exceeds one hundred fifty percent (150) of the estimated cost of review.

Section 5. Exemptions

5.1. Town of Canaan boards, commissions and other agencies or departments of the Town of Canaan, including fire company properties for fire protection purposes, shall be exempt from the payment of fees established pursuant to this Section. The Commission or Board may reduce or waive application fees where (1) the applicant is a non-profit entity which qualifies for tax deductible charitable contributions under regulations of the U.S. Internal Revenue Service or (2) the application is for low or moderate income housing or special needs housing. The Commission or Board may also credit all or a portion of application fees from previous applications (which were denied or withdrawn, where the review work performed on the previous applications) may be of benefit in reviewing the new application. The Commission or Board exempting an application from payment of a fee, in whole or in part, shall state in the minutes of the meeting at which the application was received the fee type exempted, the percentage exempt, and reasons for granting the exemption. This exemption shall not prohibit the Commission or Board from requiring consultant reports, professional certification or conducting inspections to ensure conformance with land use regulations.

Section 6. Appeal

6.1. An applicant may challenge any aspect of a fee payable under this Ordinance by submitting a written appeal within thirty (30) days of the date of the challenged bill-
ing to the chairman of the commission. The commission shall hear the appeal within sixty-five (65) days and make a ruling within an additional sixty-five (65) days from the completion of the hearing. The filing of an appeal shall not relieve the applicant from the duty to pay fees hereunder in a timely manner. Any such payments, if on appeal, shall be made under protest by the applicant, and the remedy, if the appeal is sustained, shall be by rebate.

Section 7. Validity

7.1. If any Section, clause or phrase of this Ordinance is, for any reason found to be invalid by a court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Ordinance.

AN ORDINANCE CONCERNING SAND AND GRAVEL OPERATIONS

PREAMBLE: As stated, the following is an ordinance to regulate what is commonly known as 'sand and gravel' operations of large size.

It does not apply to any other form of mining, quarrying or the removal of other materials than the sand, gravel, soils, fill, or small materials described in the ordinance and commonly excavated and sold by 'sand and gravel companies.'

It does not prohibit 'sand and gravel' operations but merely provides for licensing after certain regulations are complied with.

Nor does it apply such regulations to the kind of small amounts of the materials described.

It does not apply to any excavations already made in the town, even those of large size.

Its purpose is threefold:

To protect the appearance of the Town and thereby protect the property values of everyone in it, and to protect the tax values accruing to the Town.

To prevent the disfigurement of the Town by huge uncontrolled sand, gravel and soil strip mining operations, and to make sure that all such excavation areas are kept free from junk, trash and garbage and are properly 'healed' and landscaped afterwards (as now required by many towns elsewhere).

To protect the health and safety of the Town's inhabitants, such as children who might fall into open pits and adults whose automobiles might be involved in accidents due to careless spillage of stones and wet earth on the highways or at truck entrances to the sites.

To protect the Town against lawsuit for accidents caused by the Town's failure to provide or require certain safeguards at dangerous sites.

To give the Town and its property owners some say over the unlimited exploitation and removal, to other places, of the Town's valuable natural resources.

To protect the Town against the cost of repairs due to damage and destruction of road surfaces by trucks of unlimited number and size.

The Town would prefer to use a minimum of legal force. Instead, it seeks the help and cooperation of sand and gravel operators in protecting its appearance, values, health and safety. It would hope, too, that all such operators, including those presently in business, would take steps to prevent unsightliness, noise and the accumulation of junk and trash that hurt the Town.

It is hoped that operators may, in the future, voluntarily contribute or set aside certain attractive wooded areas, scenic spots. This would go far to relieve the eyesore problems and the health nuisance problems of the past.

In this way, the taxpayers and the sand and gravel operators can work together in harmony for the future good of the Town.

RESOLVED: That this is an ordinance to regulate the mining and removal of sand and gravel from the Town of Canaan, also the mining and removal of small stone, loam, topsoil, dirt, clay and other small-sized materials commonly associated with what is known as a “sand and gravel operation.”

This ordinance will not have any retroactive effect and will not affect any existing operations in the Town.
The excavation and removal of sand, gravel, small stone, clay, loam, dirt, mineral, or other earth product shall be permitted upon written permission of the Board of Selectmen, after public hearing, with the exception of the following, which may be undertaken without a permit:

Necessary foundation and trench excavation for home, building, or outbuilding construction up to a maximum of 6400 square feet for which a building permit has been issued.

If the work authorized in subparagraph “1.a” and “1.b” continue in incomplete status Excavation and removal of less than 300 cubic yards over a period of 30 days from any single parcel of land recorded as such in the office of the Town Clerk.

for more than one (1) year then the exception shall be void and other provisions of this ordinance shall apply to all such work.

Application for said permit shall be made to the Board of Selectmen by the property owner or his authorized agent on forms provided by the Board of Selectmen. The application shall be accompanied by a plan of operations including the following maps, plans, and specifications:

Location of the premises, lands immediately surrounding, and the amount of material to be excavated or removed.

Grading plan showing existing contours and proposed future contours and showing topography of the area after operations. Such maps and plans should also include the surrounding area within 200 feet of the excavation where applicable and to be drawn to a scale not less than forty (40) feet to the inch and with contour lines at intervals of not more than ten (10) feet.

Existing and proposed drainage of the site.

Proposed ingress to the excavation, and method of removal of products from the premises, including number of trucks and weights thereof.

Number of vehicles and types of machinery to be used on the site, hours of operation as well as the locations and types of any buildings to be erected.

Details of regrading and revegetation of the site at the conclusion of the operations, including existing ground cover and vegetation, and proposed ground cover or ground stabilization vegetation and landscaping.

Written permission for inspection of the site at any reasonable time by a duly authorized representative of the Board of Selectmen.

The Board of Selectmen shall approve the plan and grant the permit only when it is satisfied that the following conditions will be complied with:

The premises shall be excavated and graded in conformity with the plan as approved. Any deviation from the plan shall be cause for the Board of Selectmen to revoke the permit.

The applicant shall file with the Board of Selectmen a performance bond to the extent of $3,000 per 500 feet square.

No fixed machinery shall be erected or maintained within 200 feet of any property or street line.

No excavation shall take place within 100 feet of any property line or of a street line.

At all stages of operations, proper drainage shall be provided to prevent stagnant water, erosion, excessive runoff, pollution of streams and rivers by silting or otherwise, and damage to public or private property, wells, streams, rivers, roads or drainage facilities.

During the period of excavation and removal, evergreen trees at least six (6) feet tall and barricades or fences shall be erected as deemed as necessary by the Selectmen for the protection of the public.
Truck access to the excavation shall be so arranged as to minimize danger to traffic and nuisance to surrounding properties. That portion of access road within the area of operation shall be provided with a dustless surface. Any spillage on the highway or earth material deposited by truck wheels shall be removed daily.

No equipment, processing plant, or vehicles directly or indirectly engaged in the excavation, processing, or transportation of earth materials shall be operated, repaired or serviced on the premises earlier than 7:00 a.m., nor later than 6:00 p.m., Monday through Friday, nor earlier than 8:00 a.m., nor later than 5:00 p.m. on Saturdays; all such operations on Sunday and legal holidays are prohibited.

At no time shall more than one contiguous area of not more than 500 feet square be opened within the permit area, provided, however, excavation and removal in excess of 500 feet square is permitted within the terms of the license where such excavation is deemed essential to the public convenience or welfare, for town, state or federal buildings or public utilities facilities. The remainder of the permit area shall either be undisturbed land or shall have been restored. The failure to actively work an excavation area for a period of six months (excluding the months of December, January, February and March) shall be prima facie evidence that the area should be restored.

Proper measures, as determined by the Board of Selectmen, shall be taken to minimize the nuisance of noise and flying dust and rock. Machinery shall operate quietly and shall be properly maintained for maximum quietness. All blasting shall be by a licensed blaster. Noise-control measures may include, when considered necessary, limitations upon the practice of stockpiling excavated materials upon the site. Any violation of these provisions shall result in revocation of the permit. An accumulation of wrecked vehicles, garbage, trash or worn-out machinery on the premises shall constitute a violation of this ordinance and the permit shall be revoked immediately. When excavation and removal operations or either of them is completed, the excavation area shall be graded so that no gradients in disturbed earth shall be steeper than a slope of 3-1 (horizontal-vertical). A layer of topsoil, of a quality approved by the Board of Selectmen, shall be spread over the excavated area, except exposed rock surfaces, to a minimum of four (4) inches in accordance with the approved contour Plan. The area shall be seeded with a perennial rye grass and maintained until the area is stabilized and approved by the Board of Selectmen. All debris shall be promptly removed or buried.

Any such permit shall expire one (1) year from date of issuance unless renewed by the Board of Selectmen. The Board of Selectmen shall not renew or extend any permit unless the operator is able to show that the excavation already completed conforms with the plan of operations as approved. The Board of Selectmen shall appoint a board of three (3) inspectors to report to the Selectmen that the requirements have been complied with.

The failure of a permit holder to actively work the area covered by the permit for a period of six (6) months (excluding the months of December, January, February and March) shall be prima facie evidence that the work authorized by the permit has been completed and permit is then terminated. The burden shall be upon the permit holder to prove to the contrary.

No such permit shall be effective until after a public hearing is held by the Board of Selectmen, at which parties in interest and citizens shall have an opportunity to be heard. Such hearing shall be held within thirty (30) days after the date of application. Notice of time and place of such hearing shall be published in the form of legal advertisement appearing in a newspaper having a substantial circulation in the Town of Canaan at least five (5) days and not more than ten (10) days before such hearing. The Board of Selectmen shall approve or disapprove the permit within thirty (30) days after the hearing.
Penalties: Violation of this ordinance shall be punishable by a fine not less than $50.00 a day nor more than $100.00 a day.

This ordinance may be amended by vote of Town Meeting.

ITEM 6. ORDINANCE ESTABLISHING CITATION PROCEDURES
AND FINES FOR VIOLATIONS OF ZONING REGULATIONS

Purpose:
The purpose of this Ordinance shall be (a) to encourage compliance with the Zoning
Regulations of the Town of Canaan / Falls Village, Connecticut; (b) to discourage violators from
allowing violations to continue unabated by increasing the penalties for such continuing
violations.

1. Citation procedures and fines for zoning violations:

a. The Zoning Enforcement Officer is authorized to issue citations for violations of
the Town of Canaan / Falls Village Zoning Regulations to the extent and in the
manner provided by this section. The Planning and Zoning Commission shall
adopt a written policy governing the timing and circumstances under which the
Zoning Enforcement Officer may issue a citation. Any such citation may be
served either by hand delivery or by certified, return receipt requested mail, to the
person named in such citation. If the person named in a citation sent by certified,
return receipt requested mail refuses to accept such mail, the citation may be
sent by regular United States mail. The Zoning Enforcement Officer shall file and
retain an original or certified copy of the citation.

b. A citation may be issued for any violations of the Town of Canaan / Falls Village
Zoning Regulations.

c. The fine for each such citation shall be $150.00 per violation, payable to the
Treasurer, Town of Canaan. An additional $150.00 per violation for each day
after the date of issuance of the citation that the violation continues may
accrue.

d. Any person receiving such a citation shall be allowed a period of 30 days from
his or her receipt of the citation to make an uncontested payment of the fine
specified in the citation to the Treasurer or the Zoning Enforcement Officer. If the
citation has been sent by regular mail pursuant to the provisions of section 2.a.
hereof, the day of receipt of the citation shall be deemed to be four days after the
day of mailing of the citation.

e. If a person who has been issued a citation does not make uncontested payment
of the fine specified in the citation to the Treasurer or the Zoning Enforcement
Officer within the time allowed under section 2.d. hereof, the Zoning Enforcement
Officer shall send a notice to the person cited, informing such person:

1. Of the allegations against him or her and the amount of the fines;

2. That the person cited may contest liability before a hearing officer appointed
by the First Selectman as provided in this ordinance, by delivering to the
Zoning Enforcement Officer, in person or by certified, return receipt requested
mail, within 10 days of the date of the notice, a written demand for a hearing.

3. That if the person cited does not demand such a hearing, an assessment and
judgment shall be entered against him or her;

4. that such assessment and judgment may accrue an additional fine of $150.00
for each day that the violation continues; and

5. That such judgment may issue without further notice.

f. If the person who is sent notice pursuant to section 2.e. hereof wishes to admit
liability for any alleged violation, he or she may, without requesting a hearing, pay
the full amount of the fine, either in person or by mail, to the Zoning Enforcement
Officer or to the Treasurer. All fines shall be made payable to the Town of
Canaan, Treasurer. Such payment shall be inadmissible in any proceeding, civil
or criminal, to establish the conduct of such person or other person making the
payment. Any person who does not deliver or mail written demand for a hearing,
within 10 days of the date of the notice described in section 2.e. hereof shall be deemed to have admitted liability, and the Zoning Enforcement Officer shall certify to the hearing officer that such person has failed to respond. The hearing officer shall thereupon enter and assess the fines provided for in this ordinance and shall follow the procedures set forth in section 2.h. hereof.

g. Any person who requests a hearing shall be given written notice by the Zoning Enforcement Officer of the date, time and place for the hearing by certified, return receipt requested mail. Such hearing shall be held not less than 15 days nor more than 30 days from the date of the mailing of notice, provided that the hearing officer shall grant upon good cause shown any reasonable request by any interested party for postponement or continuance. The presence of the Zoning Enforcement Officer shall be required at the hearing. A person wishing to contest liability shall appear at the hearing and may present evidence on his or her behalf. The Zoning Enforcement Officer may present evidence on behalf of the municipality. The Zoning Commission may designate one or more persons in addition to the Zoning Enforcement Officer to present evidence on behalf of the Town. In the event that the hearing officer determines that he or she will not have an adequate opportunity to review documentation provided by any party to the hearing on the date of the hearing, he or she may order the hearing to be continued to a later date. If the person who received the citation fails to appear, the hearing officer may enter an assessment by default against him or her upon a finding of proper notice and liability under the applicable provisions of the Town of Canaan Zoning Regulations. The hearing officer may accept written information by certified, return receipt requested mail from the person who received the citation and may determine thereby that the appearance of such person is unnecessary. The hearing officer shall conduct the hearing in the order and form and with such methods of proof as he or she deems fair and appropriate. The rules regarding the admissibility of evidence shall not be strictly applied, but all testimony shall be given under oath or affirmation. The hearing officer shall announce his or her decision at the end of the hearing. If the hearing officer determines that the person who received the citation is not liable, the hearing officer shall dismiss the matter and enter that determination in writing accordingly. If the hearing officer determines that the person who received the citation is liable for the violation, the hearing officer shall forthwith enter and assess fines against such person.

h. If such assessment is not paid on the date of its entry, the Zoning Enforcement Officer shall send, by regular, first class mail and also by certified, return receipt requested mail, a notice of the assessment to the person found liable and shall file, not less that 30 days nor more than 12 months after such mailing, a certified copy of the notice of assessment with the Clerk of the Superior Court for Litchfield, together with the applicable entry or filing fee. Further proceedings may then be held pursuant to the applicable provisions of the Connecticut General Statutes.

i. The First Selectman shall appoint, subject to confirmation by the Board of Selectmen, one or more citation hearing officers to conduct the hearings provided by this ordinance. Hearing officers shall serve for terms of two years, unless removed for cause. The Zoning Enforcement Officer, the Chairman and members of the Planning & Zoning Commission, the Chairman and members of the Zoning Board of Appeals, the Building Inspector and all employees of the Town of Canaan who exercise zoning authority are excluded from appointment to be a hearing officer pursuant to this ordinance.

The following Ordinance was enacted at a Town Meeting held on May 22, 2018

Tax Incentive Ordinance

Purpose: The purpose of this policy is to provide incentives to attract new businesses to the Town of Canaan, to rehabilitate buildings that are now under-utilized or vacant, to build employment within the town and to enhance our tax base. The areas covered by this policy are:
1. Those located within or directly abutting the recent streetscaping project and within the historical district.
2. Those within the Town of Canaan proper outside of the historical district.

The Board of Selectmen would have the power to enter into an agreement to abate taxes if the properties satisfy the following requirements:
1. The improvements are for retail or business use.
2. The improvements are for office use.
3. Mixed use may be permitted.
4. The improvements are in keeping with the historical designation of the town.
5. The total cost of improvements is a minimum of $100,000.
6. Special consideration shall be given to distressed properties or those not currently on the tax rolls of the town.

Any such tax abatement given would be presented to the Board of Finance after the approval of the Board of Selectman for their approval. Approval of both bodies is required.

The abatement would be for three years and would be a 50% reduction in property taxes. The rationale of the three years is to allow for construction and improvement of the property in year one and establishing the business/businesses over the next two years realizing that reaching profitability in new ventures takes, on average, this time period. The abatement would commence on proof of expenditure and completion of the renovation.

The policy would expire three years after enactment and would not be a permanent policy of the town, notwithstanding that the town could extend the policy if so recommended by both the Board of Finance and Board of Selectmen.

In addition, this policy would also extend to any business in the Town of Canaan proper who would expand their facilities or construct new ones whereby there would be an identifiable increase of employment thereby and such construction or improvement would be at least $100,000.

Any applicant must not be in arrears on tax payments. Also, if the taxes are not paid timely in the period of abatement, the abatement would be canceled.
