Public Comment:

Philip Augur noted that while he serves on a few commissions in town, his comments were his own, not representing any of those bodies. He noted that if one reads Conservation's minutes they'll see feedback from birders and feedback from model airplane fliers and he wondered if it might be useful to add some feedback supportive of the efforts to maintain land for agricultural practices, not just these forms of recreation. He also noted that in the P&Z minutes one could see Conservation and Ag will be at the same POCD session, and wondered if it could be useful to collaborate at all in advance if there is subject matter where those two bodies may have some overlap, ahead of the 10/01 joint meeting.

Randy McLean continued discussion on the common interests of commissions, Whites Farm, fencing, fair maintenance, parking, and Allen Brook.
