

SELECTMAN'S OFFICE

Durham, Connecticut

August 14, 1968

The Selectmen met and paid the bills. The Clerk was instructed to invite Mr. Roger Newton to attend a meeting on August 29, to discuss placing the new street lights on various Town Roads. They approved the Town Clerk hiring the same men to examine her records, according to the Statutes, as she hired last year.

Mr. Vance is going to ask the Clerk of the Pine Grove Cemetery Assoc. to attend a meeting on August 22, if possible, to discuss the fees for graves that are charged in Middletown. Mr. Stender made a motion that Mr. Behrens be instructed to ask the Utilities to replace the trees with a shade tree ~~that~~ when they have to remove one or trim one beyond reason before he issues them a permit.

Mr. Wimler made a motion that the map, as presented by Mr. Stender for a new road from Cherry Lane to the Korn School Driveway as agreed to by Mr. Taylor, be accepted and that Mr. Bascom proceed with a final map.

A motion was made that we request \$ 800.00, from the Contingency Fund, from the Board of Finance to map the present school sites that are to be turned over to the Regional School District 13. This is necessary before an appraisal can be made of the land and buildings for the new District, as directed by Statute. Both Towns, Middlefield and Durham are required to do this.

The Board directed Mr. Stender to have Mr. Bascom proceed with the mapping of the school sites for the District, as soon as approval has been given by the Board of Finance, keeping the recreation area where the Tennis Courts are located, from the trees west of the Korn School, continuing in a Westerly direction as far as the Brook. The Selectmen request that the land north of the Brewster School, that is not finished, be kept by the Town of Durham for school recreational activities sponsored by the Town.

The Selectmen request that the local Board of Education return to the Town the necessary land for the road through the west side of the property on the south side of the Korn School Road and 50ft. across the Korn School Road, and also to return the unfinished land north of the Brewster School to the jurisdiction of the Board of Selectmen.
