

SELECTMAN'S OFFICE

DURHAM, CONNECTICUT

September 9, 1971

The Selectmen met and paid the bills. They received a letter from the Special Committee studying P.A. 490, asking for a 45 day extension. It was granted to them.

Mr. Fred Beeker of Old Washington Trail was appointed as a Special Constable for the Rod and Gun Club to replace Mr. Charles Goodrich who has moved away from Durham.

The Clerk was instructed to write to the Emergency Employment Director stating that we are interested in obtaining the Grant of \$ 17,657.00 allocated to Durham. Mr. Kerschner requested that we find out why neighboring towns will receive almost double what we are to receive. They voted to table the request of the American Red Cross asking for a portion of the money from this grant for the salary of a transportation coordinator for Middlesex County until we find out more about getting the grant.

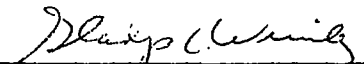

Mr. Davis made a motion to purchase the vacuum cleaner from the bid received.

Much time was devoted to determining where the street lights should be placed. Because of all the children walking along Maiden Lane to the schools, they are placing four lights on this road and the remaining six lights are to be placed at intersections.

A discussion was held concerning various drainage problems and the Selectmen are going to look at a problem at the corner of Foot Hills Road and Johnson Lane.

At the last meeting a bid was received from Vynalek Bros. to plow snow for \$ 20.00 an hour during the day and \$ 25.00 for nights and Saturday and Sundays. Seven bid forms were sent to contractors and only the one returned. This is almost double what they have been charged for plowing snow the past year for straight time and the Town has never been charged extra for nights and weekends.

They adjourned at 10:30.

Clerk
