

SELECTMAN'S OFFICE

Durham, Connecticut

September 14, 1965

The Selectmen met and paid the bills. Mr. Knickerbocker came and presented the report from the recreation committee. He told of what they had done all summer and then told us of the things that they will need for the coming year.- rubber mounds and plates, bases, backstops, keys to the lime shed. They would like the use of the High School Gym on Sunday afternoons.

A letter from Mr. Gray was received concerning three large dead trees that need to be removed and Mr. Behrens said it would cost about \$ 100.00 to take them down and it was agreed to do it. Mr. Stender brought up the intersection of Route 17 and Howd Road, and Route 17 and Barbara Lane and all agreed it was necessary to put lights in but we will have to ask the Board of Finance for the \$ 70.00. Mr. Markham had to leave early for another meeting. In looking over the letters at the end of the meeting it was found that no one had discussed a U. N. Day Chairman. Miss Marion Harvey did a good job last year. Mr. Stender suggested we ask Miss. Mary Newton.

Clerk.
