

SELECTMAN'S OFFICE

Durham, Connecticut

October 8, 1970

The Selectmen met at the Town Hall and paid the bills. Mr. Joel Davis attended for the first time, filling the vacancy created by Mr. Stender's death.

Mr. Kerschner brought in the name of Mr. David Lavine to fill a vacancy on the Industrial and Development Commission, due to the resignation of Mr. Reskin.

The Planning & Zoning Commission and the Board of Finance came to discuss land for a Cemetery and the Dump situation.

The Selectmen recommended that the Town purchase four or more acres from Mr. Roger Clark, off Mica Hill Road, subject to approval by the Board of Finance. Mr. Alvin Rich, Chairman of the Cemetery Committee, presented the project. It was mentioned that the committee has been looking for suitable land for 14 years. The Board of Finance requested the figures for fencing the property, putting in a road, and laying out the lots for their meeting next week.

Then Mr. Henry Robinson presented the Dump figures, both staying as we are now or going to a joint ownership of land and equipment.

Mr. Daniel Guire attended the meeting and discussed his land bordering Haddam Quarter Road. He wants to build two houses at the present time and also store his property and equipment there, then later subdividing. He just wants the road to be passable for his vehicles. He had previously written a letter to this effect. The Selectmen agreed to look at the road which is steep in places and impassable in the winter and spring. The Power Co. also will want to know where to locate the poles in regard to any future changes in the course of the road.

They divided the hours for making voters from 9:00 until 8:00 this coming Saturday and then adjourned.

Shelby C. Whiting
Clerk
