

SELECTMAN'S OFFICE

Durham, Connecticut

November 19, 1970

The Selectmen met while making voters. The Advisory Board came at 7:00 to discuss the Town Hall. After much discussion Mr. Wimler stated that the Town needs a Town Garage, the Fire Dept. is asking for a new Firehouse, land has just been purchased for a Cemetery, for Development purposes, and for a Dump. Therefore he is of the opinion that only the necessary rooms be built in the present Town Hall at this time. The vault is sufficient for at most four more years. The present needs are for a room for the Planning and Zoning Board, for their maps and records, and for a Selectman's Office. These rooms will need some type of heat and insulation as they would be placed on the north side of the building. Everyone agreed that complete renovation or a new Town Hall will be needed as the population increases.

Sheldon C. Wimler
clerk
