

SELECTMAN'S OFFICE

Durham, Connecticut

December 17, 1970

The Selectmen met while making voters. They reappointed Miss. Marion Harvey to the Conservation Commission for the 1976 term and Mr. Charles English to the Durham Development and Industrial Commission for the 1975 term.

The Recreation Committee had requested that two members be added to the Committee as they need help with the various activities carried on with the many age groups. Their time is all given free of charge and the Committee is very busy carrying out their duties. The Selectmen appointed Mr. Wm. Cicchese and Mr. Donald Annino as new members to assist the present committee.

Snow removal was discussed. There are new roads every year and it takes longer to cover the entire Town. The first trailer load of salt has been completely used and another will be ordered.
