Mr. A. Reed Hayes, First Selectman
Board of Selectmen
Durham, Connecticut

Dear Mr. Hayes:

Confirming our recent conversation, I am pleased to submit this proposal for services to perform a feasibility study for the proposed firehouse site, Main Street, Durham, Connecticut. I will perform services necessary to accomplish this purpose and the scope of my services will include:

1. Make necessary field survey for a preliminary topography map, plot map to a reasonable scale, and indicate proposed locations of buildings, driveways, parking areas, drainage, etc.
2. Observe and evaluate observation pits which will be dug by others.
3. Make calculations and analysis of storm water drainage. Meet with state highway personnel to resolve conflicts.
4. Submit, in letter form, a report giving my recommendations and an itemized estimate of the cost of site development.

Fees for all services outlined above will be charged on an hourly basis at the rate of 2.50 x direct personnel expense of all staff members working on this project. In any case, the maximum fee shall not exceed Eight Hundred Dollars (\$800.00). We will invoice you for the work at the completion of the survey and payment will be due in thirty days. Work will be started immediately and, depending on weather, it is expected the project will be completed within thirty days.
