Minutes of October 29, 2024 A motion to approve by Marty Harris, 2nd by Simon Ellis and approved.

Woodridge Lake: No Report

Dog Pond: No Report

West Side Pond: Simon reported that they have finally gotten their permit, and it is good for 2 years and 5 different treatments for different problems. They will be spaced out so results for each can be measured and evaluated.

Tyler Lake: Marty Harris reports that Tyler has received their permit for Sonar, but dosage has been determined by diluted concentration of 5 ppb. Previously dosage was calculated before application limited their effectiveness. This is great news but results will tell the story. Plan for next year addressing the Lilly Pad problem.
