Meeting called to order by Harris at 7:04pm

1. Approval of Minutes for October 14, 2025 by Pat Flynn, 2nd by Simon Ellis, and approved.
2. West Side Pond: Report By Simon that they had treatment in the fall and plan on a different treatment this year. Waiting on NEAR survey to determine their effectiveness. They believe they have the Eurasian Milfoil under control. Clipper applied to fight Lilly Pads and Large Leaf Milfoil.
3. Tyler Lake: Pat reviewed last year and results. This year they are planning an extended hydro raking of Lilly Pads. The treatment of herbicide was very effective but costly. Whole lake treatments are planned for every 2-3 years to keep the financial structure in balance.
4. Michele Fitzpatrick asked the Town Public works dept to ensure that the drainage catch basins be really cleaned to minimize the nutrient from entering the lakes, which makes the respective committee's job more difficult.
5. Called for meeting adjournment at 7:22 by Simon, 2nd by Pat and approved.

6. Respectfully submitted: Mark S Harris, Chairperson
