

Lake Weed Management Committee

June 9, 2026

Join Zoom Meeting

Join Zoom Meeting <https://us02web.zoom.us/j/88445030682> Meeting ID: 884 4503 0682

Meeting called to order by Mark Harris at 7:00pm present are Chris Kennavane, Simon Ellis, Pat Flynn, Michele Fitzpatrick and Joe Welsh.

Approval of Minutes for May 12, 2026, by Chris Kennavane and 2nd by Simon Ellis approved.

1. *Woodridge Lake: Have approval for PercellaCor. Treating to hopefully start next week. Abandoned wells have stalled start. Recommended not to use harvester this year. May starve carp.*
2. West Side Pond: Variable milfoil still a problem. Eurasian milfoil has disappeared. Plan on using Clear Case this year. Future permits are contingent upon replanting endangered plants that were removed.
3. Dog Pond: Looks good. Had whole pond treatment last fall. Survey to be done soon to verify what the eye sees. Hoping to do more hydro raking in the north end.
4. Tyler Lake: Does not want to treat chemically every year. Spring survey showed an explosion of Curley Leaf over isolated patches last fall. Needs to be treated. Planned on hydro raking Lilly pads.
5. General discussion about Lake problems, how to financially manage resources and lack of financial assistance from the State. Much of problem our is caused by State Public Boat Launch of which we have no control.

6. Called for meeting adjournment at 7:57 by Pat, 2nd by Chris and approved.

7. Respectfully submitted: Mark S Harris, Chairperson

Mark S Harris

Received June 11, 2026 at 9:53 A.M.

Attest *Brian Z Breen*
Goshen Town Clerk
