

Lake Weed Management Committee

July 14, 2026

Join Zoom Meeting

Join Zoom Meeting <https://us02web.zoom.us/j/88445030682> Meeting ID: 884 4503 0682

Meeting called to order by Mark Harris at 7:02pm present are Chris Kennavane, Pat Flynn, Michele Fitzpatrick, Joe Welsh and Dan Dilworth.

Approval of Minutes for June 9, 2026, by Michele Fitzpatrick and 2nd by Pat Flynn and approved.

Meeting paused for discussion unrelated to committee's purpose.

Meeting resumed at 7:08

1. *Woodridge Lake: Have approval for PercellaCor. Treated 55-60 acres. Seemed to work well. Time will tell. Carp are doing well, some are very large. Able to reclaim fish that went over dam. Water quality is very good and have 15 feet visibility*
2. West Side Pond: No Report
3. Dog Pond: Looks good. Had whole pond treatment last fall. Survey to be done soon to verify what the eye sees. Hand pulling near endangered species. Hoping to do more hydro raking in the north end.
4. Tyler Lake: Does not want to treat chemically every year. Spring survey showed an explosion of Curley Leaf over isolated patches last fall. Needs to be treated. Treatment done for Curley Leaf in early to middle of June Planned on hydro raking Lilly pads. Held seminar with Ag Experimental Station on Hydrilla. All lakes were invited to attend
5. General discussion about Lake problems. Lakes need to have separate meeting with the selectman about how to financially manage resources and lack of financial assistance from the State. Much of the lakes problems is caused by State Public Boat Launch of which we have no control.

6. Called for meeting adjournment at 7:40 by Joe 2nd by Chris and approved.

7. Respectfully submitted: Mark S Harris, Chairperson

Mark S Harris
