1. Motion to approval of Minutes for September 8, 2026 by Pat Flynn, 2nd by Simon and approved.
2. Woodridge Lake: Plant survey done. No indication of Eurasian Milfoil, Water quality excellent with readings of 15-18 ft clarity. Suggested that they not use harvester next year. Carp doing their job. All weed level down.
3. Dog Pond: No Report
4. Tyler Lake: Season winding down. 5 days of hydro-raking was done in North Cove. Good year but still have bog problem. Hopefully the removal of Lilly Pad has its desired effect on the bogs. Michele concern with herbicide spray on our roads, has negative effect on lakes. To consult with Garrett
5. West Side Pond: NEA is doing hand pulling of Curley Leaf Pond Weed. Much progress has been made but must continue to keep spread at bay.
