**RE: — Rehabilitation of Humaston Brook twin 60" RCP culvert crossing,  
slope stabilization and drainage improvements (0.02 acre).**  
**Location: Richards Road Ext.**

.

To Mr. Alexe:

At their October 12, 2022 meeting, the Inland Wetlands Commission approved your application for the above activities.

A permit is enclosed with conditions listed. Please read it carefully, as all construction or other work must conform to what the permit authorizes.

It is suggested that you contact the Land Use Office to determine applicability of zoning regulations regarding any construction associated with this permit, as additional zoning and building permits may be required.

If you have any questions, please contact the Land Use Office at 860 567-7565.

Sincerely,

Martin Connor  
Land Use Administrator

/ab

### **Wetlands Permit #CC00001531**

This authorization refers to your application to conduct regulated activities in the town of Litchfield. The Inland Wetlands Commission has considered your application with due regard for the matters enumerated in the Inland/Wetland Regulations and has found that the proposed work, as specified and conditioned below, conforms to the purposes and provisions of said regulations.

The authorized activity consists of: **Rehabilitation of Humaston Brook twin 60" RCP culvert crossing, slope stabilization and drainage improvements.**

This permit is subject to the following conditions and/ or modifications:

1. The permittee shall notify the Inland Wetlands Commission immediately upon the commencement of work and upon its completion.
2. If the authorized activity is not completed on or before **10/12/2027** said activity shall cease and, if not previously revoked or specifically renewed or extended, this permit shall be null and void. Any request to renew or extend the expiration date of a permit should be filed in accordance with the Inland Wetland Regulations of the town of Litchfield. Expired permits may not be renewed and the Inland Wetlands Commission may require a new application for regulated activities.
3. All work and all regulated activities conducted pursuant to this authorization shall be consistent with the terms and conditions of this permit. Any structures, excavation, fill, obstructions, encroachments, or regulated activities not specifically identified and authorized herein shall constitute a violation of this permit and may result in its modification, suspension or revocation.
4. This authorization is not transferable without the written consent of the Inland Wetlands Commission.
5. In evaluating this application, the Inland Wetlands Commission has relied on information provided by the applicant. If such information is subsequently proved to be false, incomplete, or misleading, this permit may be modified, suspended, or revoked and the permittee may be subject to any other remedies or penalties provided by law.
6. The permittee shall employ the best management practices, consistent with the terms and conditions of this permit, to control storm water discharges and to prevent erosion and sedimentation and to otherwise prevent pollution of wetlands or watercourses. For information and technical assistance contact the Land Use Administrator. The permittee shall immediately inform the Commission of any problems involving the wetlands or watercourses that have developed in the course of, or that are caused by, the authorized work.
7. No equipment or material including without limitation, fill construction materials or debris, shall be deposited, placed, or stored in any wetland or watercourse on or off site unless specifically authorized by this permit.
8. This permit is subject to and does not derogate any rights or powers of the Town of Litchfield, conveys no property rights or exclusive privileges, and is subject to all public and private rights to all applicable federal, state, and local laws. In conducting and maintaining any activities authorized herein, the permittee may not cause pollution, impairment, or destruction of the inland wetlands and watercourses of Litchfield.
9. If the activity authorized by the inland wetlands permit also involves activity or a project that requires zoning or subdivision approval, special permit, variance, or special exception, no work pursuant to the wetlands permit may begin until such approval is obtained.
10. The permittee shall maintain sediment and erosion controls at the site in such an operable condition as to prevent the pollution of wetlands and watercourses. Said controls are to be inspected by the permittee for deficiencies at least once per week and immediately after rains. The permittee shall correct any such deficiencies within 24 hours of said deficiency being found. The permittee shall maintain such control measures until all areas of disturbed soils at the site are stabilized.
11. **Erosion and sedimentation controls be installed and inspected prior to site disturbance.**

### **ADDITIONAL CONDITIONS AND/OR MODIFICATIONS:**
