They have many handicapped members that entering the building is too dangerous. Currently, events are limited since they must rent extremely expensive handicap accessible restrooms. DRAC has already approved ADA compliant improvements to front of building. A Seherr Thoss Grant has been received and architect Cliff Cooper is donating his services. The post is fundraising and would appreciate donations.

Roger and Margaret Kane were present for application. R. Kane gave a history of the property, their 2020 purchase and home construction in 2021. He noted shed will be moved 5’ closer and variance only needs to be for 10’. Septic location at back of property, driveway on side, brook at bottom of hill, wetlands and steep backyard topography limits available barn locations. Both D. Tobin and M. Connor have advised them that proposal is the best location. R. Kane noted he has previously tumbled down the steep terrain in backyard. Neighbors Litchfield Land Trust submitted an approval letter and Peter Litwin has been very supportive.

B. Donahue asked if anyone present was for or in opposition of the application. No one was present for either.

At 8:19 p.m., J. Zwick motioned to close the hearing, L. Hillman seconded and vote was unanimous.
