New Business:

Chairman O'Connor explained the Aquifer Protection Agency. The State of CT gives proper guidelines. Chairman O'Connor was certified. Aquifer encompasses service garages, dry cleaners, gas stations, petroleum storage, and ours in mainly in the center of town. There was a recent issue at Stop and Shop plaza with a vehicle leaking gas. This commission was not made aware of it, but the Fire Marshal went out there with a member of the fire department and they determined the amount of liquid had not reached the stormwater drainage or impervious area of asphalt so they put sand down. Chairman O'Connor wanted to bring it to the commission's attention. The Fire Marshal files a report to DEEP and Aquarion was made aware of the situation. We are still waiting on DEEP report – they have not investigated it yet. Chairman O'Connor encouraged the members to check out certification.
