First hearing regarding a moratorium on data centers and battery storage systems in the town of North Canaan.

Public Comment: Bernie Re addressed the board speaking against allowing data centers and battery storage systems in the town. He is against having them anywhere in Connecticut. This is a good opportunity to make a statement that we do not want something like this. It is not a long term investment. Mr. Re read information into record.

ZEO Martin read into record an email opposing the data centers and battery storage systems sent to him by Sonja Zinke.
