MEANWHILE... ZERO INCREASE

- The State of Connecticut's FY 2027 budget included zero increase to any of the six regular aid programs in Winchester's General Fund budget.
- State aid remained flat while costs of business continues to rise.
- Stagnant state aid shifts the burden onto local taxpayers.

Questions and Answers

Question: How was this budget built?

Answer: We started from zero and built based on the needs of the students.

Question: What should be in this budget that isn't?

Answer: There are many needed positions and resources that were eliminated before the budget was presented to the BOE.

Then, the BOE reduced the budget by \$500k, removing positions that were deemed of vital importance.

Then, the BOS reduced the budget by \$1 million, causing the elimination of 7 more positions.

Question: What additions are included in this budget?

Answer: None

Question: What was eliminated from this budget?

Answer:

- 1 Classroom Teacher
- 1 Preschool Teacher
- 1 Preschool Paraeducator
- 2 Academic Interventionists
- 1 Director of Student Data & Information
- 1 Administrator
- 2 School Safety Officers

(restored by use of emergency reserve funds)

Question: Why is the increase so big?

Answer: Costs have gone up.

The cost for out-of-district special education transportation and tuition is up \$793,741.

The cost for The Gilbert School tuition is up \$528,638.

The cost for our insurance is up \$636,849.

These three items alone represent a \$1,959,228 increase.

Our increase though, is \$1,056,697. We are losing ground.

Question: Why can't you mitigate the increase this year?

Answer: There is nothing left to give.

Over the last many years, the budget was supported by grant funds that are no longer available.

In recent years, as those funds were winding down, positions were eliminated and budget lines were reduced.

There is nothing left to eliminate or reduce other than staff that works with students. (Teachers, Admins, Paras, BTs, SLPAs, Interventionists)

Question: Are the teachers overpaid

Answer: No.

The WPS starting teacher salary this year is \$44,147.

This is 172nd lowest out of 175 districts in CT.

Question: Has anyone reviewed this budget looking for waste?

Answer: YES!

Through close scrutiny of the budget by the Superintendent, the Board of Education and the Board of Selectmen, every expense was reviewed.

There is no waste in this budget. There is no excess in this budget.

Question: What else can be eliminated from this budget?

Answer: Nothing

At this time, any further reduction to the budget would require the elimination of teaching positions which would significantly increase class size

Question: Why should I support this budget?

Answer: Because any further reductions would be unsustainable and would significantly impact our students.

WHAT WE NEED

We need to maintain the current level of services that we provide to our students

Any further reduction to the Board of Education requested budget will remove vital supports that our students need

The schools we need for
the town we want

Thank you

REFERENDUM QUESTION

“SHALL THE TOWN OF WINCHESTER ADOPT THE PROPOSED BUDGET FOR THE NEXT FISCAL YEAR COMMENCING JULY 1, 2026, AS PRESENTED BY THE BOARD OF SELECTMEN IN THE AMOUNT OF \$42,290,600 AND ALLOCATE \$1,296,000 FROM THE TOWN’S FUND BALANCE FOR ONE-TIME CAPITAL IMPROVEMENT PROJECTS?”

Voters approving the budget will vote “Yes” and those opposing the budget will vote “No.”

Absentee ballots will be available in the Town Clerk’s office starting Friday, May 15, at 8 am.

**Mr. Moderator,
we yield to you.**
