Item 6 **Town Manager's Report** - Town Manager Paul Harrington reported on the following topics.
* The efforts of Public Works, Sewer and Water Department crews far exceeded expectations as they won praise from just about everyone with their snow removal accomplishments. Residents and travelers thru Town were able to navigate safely as snow filled roads and sidewalks were given consistent attention. Leading up to the storm the Police Department and Emergency Management Director strategically worked to get the roads cleared of parked vehicles well in advance of the snowfall.
* The Assessors Office has filed their 2025 Grand List Report. The numbers show that a positive overall increase was somewhat muted by existing and some new Motor Vehicle and Personal Property exemptions
* The FY2027 Budget exercise has moved into one on one meetings with each Department Head

- * Senators Blumenthal and Murphy were instrumental in securing locally directed funds thru the FY 2026 Congressionally Directed Spending earmark for our Southern Sewer Network Expansion project. The money will help extend sewer mains on Rowley Street all the way to the Town's Public Works facility. The efforts and focus of Tom Heuschkel have been greatly instrumental in securing this pivotal funding win.
- * The Town and Board of Ed team has partnered with Downes Construction to help craft a vision plan for adding Pre-K classrooms to Hinsdale School. Downes has a stellar reputation for successfully bringing initiatives like ours to reality. Their initial consultation came in well under budget at \$13,000.
- * Placement efforts for the Smolak dogs continues as the Town has contracted with Happy Dog Rescue to help find safe and loving homes. HDR will vet all applications and even conduct site visits to ensure each dog is properly adopted and securely placed.
- * Winsted Ambulance has offered a "Ride-Along" opportunity to anyone serving on the Board of Selectmen. This offer is intended to increase awareness of the daily challenges they routinely face.

A) *Roadway Infrastructure Strategic Planning*

Public Works Director Jim Rollins and UConn Intern Dan Kogstad gave a PowerPoint Presentation that explained some new technology that the Public Works Department is utilizing to better grade the condition of Winchester roads. The "Vialytics" Program utilizes digitized road management to evaluate infrastructure and centrally manage maintenance and reconstruction projects. Dan and Jim showed a color coded map of Town roads and the 1 to 10 rating system that the Town trucks had compiled using AI and photography uploads. Potholes, cracked asphalt, road patches, signs, manhole covers and drains are all documented with GPS data and timestamped every 10 feet. This compilation of data now allows the Town to track and strategize how money should be best spent to keep roads safe and usable.
