

THE HEARTWORK SERIES

The Heartwork Series is a free, feel-good workshop program open to all ages.

Each session invites participants to create something beautiful for someone else—whether it's hand-painted library chairs to inspire young readers, lanterns for local heroes, decorating downtown fences with positivity, or cheerful fabric flowers for local seniors.

Through art, kindness, and shared purpose, we're stitching connection into the heart of our town—one project at a time.

Come make a difference with your hands and your heart. All materials provided. No experience needed—just a willingness to give.

DATES / PROJECT
