2022 Dood and Infrastructure Improvement Dond	
2022 Road and Infrastructure Improvement Bond	
Road Segment Information Sheet	
Case Avenue	
From Main St	To Gay St
Improvement Scheduled	FY 2023
2019 Paser Rating	Very poor (2) to Poor (3)
Estimated Cost/Town Share: \$670,000	\$630,000
Description of Existing Conditions	
Pavement - Case Avenue has a map cracked surface. Frequent severe potholes form in the shoulders. Drainage Surface flow - significant ponding of surface water occurs along the shoulders. Inlets - The catch basin inlets are old cast iron and have corroded metal and masonry supports. Pipes - The pipes draining the basins are mostly undersized and in poor condition. The main trunk line is a mixture of clay, metal and concrete. The metal portions are about 50% of the pipe and are heavily corroded and are in danger of collapse. The Clay pipes are cracked heavily in some areas. Sidewalks - The Sidewalks from Main St to Center are in poor condition for more than 50% of its length. There are no handicapped access ramps at Center St Intersection. From Center to Gay, the sidewalks are in good condition.	Photo 1. Looking toward Main St

Buried Utilities	
Water – The water lines are old cast iron pipes	
and are scheduled for replacement in FY 2022.	
Sewer – The sewer pipes are old clay pipe and	
require improvement; however, they can be	
repaired using trenchless methods.	
Eversource Gas – Eversource gas installed a	
new gas main in 2021 and left temporary patches in	
the surface.	
Other – Buried Electrical and communications	
exist in the road, but, the utilities have no schedule	E
for replacement in the immediate future.	7
Other Concerns – There is road work planned in	
the neighborhood on Gay St, Center, Greenwoods,	
Thibault and Elm St. The Case Avenue Bridge is	
also being replaced.	· Lasse
