2022 Road and Infrastructure Improvement Bond

Road Segment Information Sheet

Hubbard St

From	Boyd St	To	End of Rd
Improvement Scheduled		FY 2025	
2019 Paser Rating		2	
Estimated Cost/Town Share		\$690,000	\$690,000

Description of Existing Conditions

Pavement – The surface has failed and is pot holed over significant portions.

Drainage

Surface flow –the crown in the road is lower than desired to contain the drainage to the shoulders. Icing problems occur near the end of the road.

Shoulders – are generally adequate.

Inlets – There are limited catch basins on this section. Some sections require additional basins or existing ones rebuilt.

Pipes – Cross culvert are the typical method of Pavement drainage. The condition of the pipes in not known. But replacement is needed due to age.

Sidewalks – The sidewalks are in poor condition, or they are not present.

Photo 1. Looking South to John St

Buried Utilities	
Water – The water mains are in good condition in this road.	
Sewer – The sewer mains are in good condition under this road.	
Eversource Electric – The power lines are overhead.	
Eversource Gas is scheduled to replace the gas under this road in 2024	
Other – Communications appear to be overhead.	
Other Considerations – This is an important local road due to the presence of industrial facility.	<p>Photo 2.</p>
Proposed Improvements	
Description of Work	
1. The cross culverts and associated structures will be replaced and new ones added.	
2. The existing road surface will be removed and completely rebuilt. Sidewalks will be reconstructed on one side of the road	
3. 4" of asphalt will be added to the surface.	
Status of Design – The work will be let out to bid to be completed by a contractor.	
Budget for Improvements	
Preliminary Cost Project Est - \$690,000	
State Participation: \$0. There will be some participation in costs by Eversource Gas. The amount has yet to be determined.	
Total Town Share Estimate - \$690,000
