The BOLO program (Be On the Look Ot) began in January of 2026. It is an employee recognition program based on a peer submission process. The goals of the program are to increase the recognition our employees receive for their outstanding work and accomplishments, to reward employees who demonstrate leadership, and to highlight all the great work being done by our employees.

We are proud to announce that Officer Jessica Luzefski has been selected as the BOLO program’s “Employee of the Quarter” for the first quarter of 2026.

Officer Luzefski has been a member of the Winchester Police Department for 11 ½ years and is assigned to our Operations Division. Officer Luzefski is a Field Training Officer (F.T.O.) where she consistently goes above and beyond in mentoring new recruits, ensuring they uphold the highest standards of professionalism, safety, and community engagement.

Throughout the first quarter of 2026, Officer Luzefski was nominated multiple times by her peers and recognized for her hard work. Her efforts included cleaning, organizing, and making functional improvements to our work spaces at police headquarters. She is one of our BOLO program managers and met with multiple businesses in town to create partnerships, grow the program, and strengthen our relationships in the community. Her compassion and kindness was observed and reported on a call for service with a resident who was going through a difficult time. Our program tagline is “Recognizing employees for doing great things,” and Officer Luzefski made it easy to do so last quarter.

Congratulations and thank you Officer Jessica Luzefski!
